

How long has she enjoyed cooking?

Anna has loved cooking forever! She and her mom cook and bake together a lot, especially since her brother and sister went off to college. That gave us more time to cook slowly together in the kitchen and choose from a larger variety of foods to cook. Anna loves everything!!

What are some of her favorite things to make?

Anna loves to cook ratatouille, enchiladas, bake brownies and make salads.

Does Anna help prepare meals at home?

Anna helps shop for fruits and veggies at the farmer's market every Saturday morning. She also helps to prepare meals by measuring ingredients, cracking the eggs and cutting up veggies using her adaptive knives. She practices turning on the gas burners and opening the oven with her parents; AND we set timers for everything!
